Course Number: LITG7036  
Call Number: 000053

Professor: Armstrong (and Faculty Advisory Committee)  
Credits: 1 Non-Classroom; possible additional credits pending faculty approval.

Primary Basis for the Grade: High Pass/ Pass/ Low Pass/ Fail  
Prerequisites: None  
Enrollment: Open  
Meets Seminar Requirement? No  
Meets Writing Requirement? No  
Meets Client Counseling Requirement? No  
Meeting Times and Location: At times and dates to be announced

COURSE DESCRIPTION:

The University of Cincinnati Intellectual Property and Computer Law Journal is the newest scholarly journal of the University of Cincinnati College of Law. The Journal will be dedicated to furthering knowledge associated with the research and practice of intellectual property law, computer law, and related fields concerning domestic and international media and telecommunications policy. The Journal will be published initially online.

2014/15 is a transitional year during which the Journal will operate under the close supervision of a Faculty Advisory Committee chaired by Professor Timothy K. Armstrong. During the fall semester, the students participating in the Journal, known as “Founding Members,” will work with the Faculty Advisory Committee to begin the publication process for the new Journal.

HOW STUDENTS CAN APPLY TO PARTICIPATE IN THE JOURNAL:

Participation is open to all students currently enrolled in the J.D. program who have maintained a grade point average of not less than 2.00. Students interested in being Founding Members of the Journal should submit (1) a one-to-two-page letter of interest and (2) a copy of the student’s unofficial law school transcript to the Faculty Advisory Committee, which will make selections in coordination with the elected members of the Journal’s Editorial Board for 2014/15. The letters should be submitted to Charlene Carpenter, Registrar, no later than 4:00 pm on Wednesday, July 30, 2014. Students may consider including the following in their letters: why they are interested in participating in the Journal, how they became interested in intellectual property and computer law, classes they have taken on these topics, and other information they would like the Editorial Board and Faculty Advisory Committee to know about their interest in the Journal.

The Registrar will enroll students selected to participate in the necessary class through the registration system.
